**Business Data**

SCBV has failed to restore user credentials and passwords allowing Stream to access its business data stored on SCBV servers. Such data includes:

1. Presentations: technical, sales, marketing, investment, business development, production
2. Business records: financial, corporate governance, legal, human resources

Stream is also entitled to additional business data enabling it to conduct business in the ordinary course:

- List of current and potential contracts – Stream must be made aware of all potential and current contractual commitments made by SeeCubic, Inc. during the period of its improvident control of the assets – includes current and prospective clients, customers, strategic partners, etc.

- List of current or potential licenses – Stream must be made aware of all licenses of any kind granted to or pending with all third parties, including all terms thereof.
- List of current patent portfolio – Stream must be updated on the current portfolio so it can maintain the necessary patents
- List and salary details of all current employees and contractors engaged by any/all Stream subsidiaries – Stream must know the payroll obligation
- Business development and customer update with contact names and details – Stream must know the current development status with all potential partners so that it can maintain necessary relationships and avoid any inadvertent damage to the Ultra-D brand
- List of all individuals and companies for whom Seecubic demonstrated (or plans to demonstrate) glasses-free 3D technology, for any purpose, including solicitation of 3D content conversion services
- List of all conversion contracts, work product, materials for content conversion services being provided by Seecubic, Inc., Meetal Gokul, and their associates. Such conversion contracts were secured using Stream TV technology and the resulting business should benefit Stream TV.
- List of all employees in Meetal Gokul's group.
- List of all potential customers that Meetal Gokul's group did demonstrations for or discussed the technology with.
- List of everyone that any SeeCubic, Inc., SeeCubic London, SeeCubic B.V., SeeCubic India had a meeting with regarding Glasses-Free and/or content projects.
- List of Seecubic, Inc.'s investors and prospective investors.

### **Website Control**

Although SCBV provided limited access data for certain of Stream's websites, it did not provide full administrative access to Amazon Web Services. For the websites listed below, all Stream has been able to do is put a forwarding link to [www.streamtvnetworks.tech](http://www.streamtvnetworks.tech). Stream needs complete administrative access for:

- [www.streamtvnetworks.com](http://www.streamtvnetworks.com)
- [www.streamtvnetworks.net](http://www.streamtvnetworks.net)
- [www.streamtvinternational.com](http://www.streamtvinternational.com)
- [www.ultra-d.com](http://www.ultra-d.com)
- [www.mediatainmentinc.com](http://www.mediatainmentinc.com)
- [www.techventuresbv.com](http://www.techventuresbv.com)

Additionally, several of Stream's websites remain under SCBV control and feature home pages with legally incorrect and misleading information that says:

**"Stream TV Networks, along with all subsidiaries and all associated assets, has been acquired by SeeCubic, Inc. The groundbreaking glasses-free 3D technology, UltraD, was developed by SeeCubic BV in the Netherlands and is now the cornerstone of a new & innovative international company, SeeCubic, Inc."**

Stream has not been given control of its websites below, which feature the incorrect above-mentioned statement:

- [www.streamtvinternational.nl](http://www.streamtvinternational.nl)
- [www.stvinternational.com](http://www.stvinternational.com) (forwards to [www.streamtvinternational.nl](http://www.streamtvinternational.nl))

- [www.stvinternational.eu](http://www.stvinternational.eu) (forwards to [www.streamtvinternational.nl](http://www.streamtvinternational.nl))
- [www.stvinternational.nl](http://www.stvinternational.nl) (forwards to [www.streamtvinternational.nl](http://www.streamtvinternational.nl))
- [www.streamtvinternational.eu](http://www.streamtvinternational.eu) (forwards to [www.streamtvinternational.nl](http://www.streamtvinternational.nl))
- [www.stvi.eu](http://www.stvi.eu) (forwards to [www.streamtvinternational.nl](http://www.streamtvinternational.nl))

Importantly, Stream purchased and owns the domain name [www.seecubic.com](http://www.seecubic.com). Stream used it for more than 10 years as the home of its R&D subsidiary in the Netherlands. SLS and Hawk created a new U.S. entity with a similar name and has commandeered the URL for its own purposes. This domain must be returned to Stream as mandated by the Delaware Supreme Court.

It appears that these Stream domains – that were never returned to Stream – are no longer registered or active:
